Melomed Hospital Holdings spokesperson

WITH the celebratory mood beginning to fade away and soccer fever now beyond us, there is another cause for celebration this year – Melomed Hospital Holdings Ltd celebrates its 21st birthday.

Melomed, the largest wholly owned black private hospital group in the

Western Cape is celebrating 21 years of commitment to growth and excellence.

Melomed takes pride in providing healthcare of an exceptionally high standard to the people of the Western Cape at its three hospitals – Melomed Bellville, Melomed Gatesville and Melomed Mitchells Plain.

In keeping with Melomed's principal objectives of providing affordable quality healthcare by identifying areas of

need, all three Melomed hospitals have been subjected to ongoing maintenance and improvement.

Melomed Mitchells Plain is currently undergoing a facelift to ensure that patients and medical staff benefit from a modern environment with state of the art technology.

Melomed Gatesville is also currently undergoing a major extension, which will see additional beds and exciting new medical services being offered at the hospital, including a renal unit, oncology unit and nuclear medicine facility.

Melomed Bellville, as the "new kid on the block", has been oper-

ating for just one year and has recently been granted a licence for a catheterisation laboratory.

This flagship hospital already boasts outstanding specialist facilities, including maternity wards, neonatal facilities, paediatric wards, medical wards, ICU and surgical wards, all in luxurious private and semi-private wards.

Patient care is the core of our business, hence, our emphasis is not only on providing the latest technology or comfort. The objective of making every patient's hospital stay as pleasant and as stress-free as possible is revealed in the attention to detail that can be experienced at our facilities.

Thanks to Melomed having its own ambulance service which is backed up by fully equipped trauma units and staff trained in emergency medicine, patients at all Melomed hospitals are assured of prompt access to skilled and efficient emergency services.

Melomed's ongoing commitment to providing quality care has resulted in the implementation of a new quality assessment system.

This high standard of quality care, combined with our determination to respond to the specific needs of our clientele gives the Melomed group a unique appeal among the communities it serves.

CONGRATULATIONS
On the 1st Birthday of
MELOMED HOSPITAL BELLVILLE
We are proud to be associated with your group
